

Lectur 16 - Uses and rough designs for what to do with smart contracts.

What are the things that smart contracts provide us with:

1. Proof of transfer
2. Proof of date and time
3. Strong Security
4. Proof of possession
5. Proof of uniqueness

Example Businesses

1. Document Tracking - ISO 9002
2. Real Estate Titles
3. Other Titles (boat, car etc)
4. Proof of Identity (voting)
5. Transferable Items (software etc)
6. Game Items
7. Currency
8. Proof of Authority
9. Privacy - DNA in India
10. Sharing of Data
11. Supply Chain
12. Stocks
13. Side Channels to other items
14. Accuracy of Logs
15. Accuracy of Documents
16. Echo Credits
